5 FIRST STEPS

**Switch on:** the phone by pressing the power on/off-key for at least 5 seconds.

**Switch off:** by pressing power on/off for 5 seconds again. When using a new SIM card, enter the 4 digit PIN Code (Personal Identification Number) and confirm with .

**PIN-Code:** The PIN-Code is a 4-digit number combination preventing others from switching on your mobile phone.  
• Switch off your PIN-Code: In menu: **Settings**→ **Security** → **Power on PIN1** → **PIN off**.

**Entering Menu:**  
▪ press -key ( between and ).  
▪ scroll through menu points: with and .

▪ confirm/ choose with . For navigating in the menu, use to confirm and to cancel / take a step back in the .

*Note: due to inactivity, the phone lights and screen turn off after a while. To turn on again, press any key.*

**Incoming Call:** Pick up call: Press -key –  
Reject call: Press -key

**End call:** Press -key.

**Dial:** Enter the telephone number via the keypad (including area code with 0) → start call with .

**Redial list:** press -key, scroll through call list with (all dialled, missed and received calls) and select a number and start call with .

**Handsfree Speaking:**  
During a call handsfree function can be switched on or off: by pressing the M2 button **Options** → **Handsfree**.

6 PHONE BOOK

Saving names and numbers (start with international prefix, e.g. +44 for UK).  
Enter menu in standby mode with , → menu points: **Dial to, Edit, Delete, Create, Copy, Move, Status**.

**Storing phone book entries (Name & Number):**  
Enter menu with → continue to **Phonebook:** → continue to „**Create**“ → continue to „**Save to SIM/Save to ME**“ enter name via the keypad (See chapter 8, Write SMS for text entry), Enter number, and press key to **Save**.

**Searching phone book entries:**

▪ Scroll through the entries with and . Or:  
▪ Search names: enter the initial letters of the searched name via the keypad (scroll through with When the requested name is shown, press to start a call.

**M1 and M2 quick dial buttons:**  
In the idle screen key in the phone number to be saved. Press 2 times and select either Save to or Save to . Confirm selection with .

To dial a number from the speed dial keys.  
Press the / key at least 2 seconds. The number is dialled automatically.

7 EMERGENCY FUNCTION

You can store a total of 5 emergency numbers (family, neighbours, friends, emergency services). In case of emergency these preselected numbers will be dialed automatically in a sequence, if the emergency key on the back of the phone gets pressed and held.  
A continuous warning tone then starts in “loudspeaker mode” during emergency, so you and people nearby are warned due to the emergency! If the first number cannot be reached, the second number will be called automatically. If the second number in row cannot be reached, the third will be called. (max. 3 rotations of the 5 numbers).

If no emergency number is saved or if your calling card has expired or you have no access to a foreign network (e.g. roaming not permitted), 112 will be dialed.

Saving emergency numbers: Enter → **Settings** → **SOS Setting** → **SOS-contact list** → press key → **Create**: enter the name and confirm with → enter the number and again confirm with . For the next emergency number please repeat this process accordingly. Settings editing or deleting emergency number go to → **Settings**→ **SOS Setting** → **SOS-contact list** and press → **Edit/Delete**. For defining your emergency message go to **Settings**→**SOS Settings**→**SOS message** (writing text: see chapter 8) For deactivating the SOS function: Enter → **Settings**→**SOS Setting**→**SOS button**→ → **Disable** →

*Note: If you want to save emergency numbers from official services, police, fire department, etc., you have to clarify this with the certain institution. No liability will be assumed for possible costs incurred if you dial accidentally.*

8 SMS MESSAGES

**SMS (Short Message Service)** are written messages with a maximum of 160 characters.

**Receive SMS:** A short signal and a registration on the display inform you about a new, incoming SMS message. With you can read the message immediately or see a list of messages which have already been received. Enter → **Short Message** → **Inbox**.

**Write SMS:** Enter → **Short Message** → **Create new:** → The text entry is done via the letters on the keypad.

	. , ! ? ‘ “ @ : 1		j k l 5 £		w x y z 9 ý þ
